

RESPONSIBILITY

Responsibility is the state or fact of having a duty to deal with something or having the authority, power and control of something or someone.

Responsible students take ownership of their actions by behaving or acting in a civil manner that respects the learning or the social environment and complies with the policies out-lined in the institution.

Responsibility is not only about being held accountable for something or someone; however, it is also about demonstrating academic integrity and honesty. Moreover, attending and participating in classes and seminars prepared and on time can also be known as responsibility.

Completing the assigned work in a timely manner with attention to quality of work by avoiding making excuses for their behavior is the perfect description of a responsible student.
